Notes to the Quarterly Interim Financial Report – 31 March 2019

PART A: EXPLANATORY NOTES AS PER MFRS 134

A1. Basis of preparation

The interim financial statements are unaudited and have been prepared in accordance with the requirement of MFRS 134: *Interim Financial Reporting* and paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad.

The interim financial statements should be read in conjunction with the audited financial statements for the financial year ended 31 December 2018. These explanatory notes attached to the interim financial statements provide explanation of events and transactions that are significant for the understanding of the changes in the financial position and performance of the Group since the financial year ended 31 December 2018.

A2. Significant Accounting Policies

The audited financial statements of the Group for the financial year ended 31 December 2018 were prepared in accordance with MFRS. Except for certain differences, the requirements under IFRS and MFRS are similar. The significant accounting policies adopted in preparing these interim financial statements are consistent with those of the audited financial statements for the financial year ended 31 December 2018 except for the adoption of new MFRSs and amendments that are mandatory for the Group for the financial year with effect from1 January 2019:

- MFRS 16, Leases
- IC Interpretation 23, Uncertainty over Income Tax Treatments
- Amendments to MFRS 3, Business Combinations (Annual Improvements to MFRS Standards 2015-2017 Cycle)
- Amendments to MFRS 9, Financial Instruments Prepayment Features with Negative Compensation
- Amendments to MFRS 11, Joint Arrangements (Annual Improvements to MFRS Standards 2015-2017 Cycle)
- Amendments to MFRS 112, Income Taxes (Annual Improvements to MFRS Standards 2015-2017 Cycle)
- Amendments to MFRS 119, Employee benefits Plan Amendment, Curtailment or Settlement
- Amendments to MFRS 123, *Borrowing Costs (Annual Improvements to MFRS Standards 2015-2017 Cycle)*
- Amendments to MFRS 128, Investments in Associates and Joint Ventures Long-term Interests in Associates and Joint Ventures

The initial application of the abovementioned accounting standards, interpretations or amendments is not expected to have any material financial impact to the current period and prior period financial statements of the Group and the Company except as mentioned below:

MFRS 16, Leases

MFRS 16 replaces the guidance in MFRS 117, *Leases*, IC Interpretation 4, *Determining whether an Arrangement contains a Lease*, IC Interpretation 115, *Operating Leases – Incentives* and IC Interpretation 127, *Evaluating the Substance of Transactions Involving the Legal Form of a Lease*.

MFRS 16 introduces a single, on-balance sheet lease accounting model for lessees. A lessee recognises a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligations to make lease payments.

There are recognition exemptions for short-term leases and leases of low-value items. Lessor accounting remains similar to the current standard which continues to be classified as finance or operating lease.

MFRS 16 has been adopted by the Group as at 1 January 2019 using the modified retrospective method of adoption which measures the lease liabilities based on the present value of future lease payments calculated using the incremental borrowing rate and exchange rate at date of transition. Lease payments would be split into principal and interest payments, using the effective interest method. Correspondingly, the right-of-use ("ROU") assets will be the present value of the liability at the commencement date of the lease, adding any directly attributable costs. The ROU asset will be depreciated on a straight-line basis over the shorter of the lease term and useful life of the leased asset. As the modified retrospective method of adoption is applied, comparative figures are not restated.

The Group elected to use the transition practical expedient allowing the standard to be applied only to contracts that were previously identified as leases applying MFRS 117 and IFRIC 4 at the date of initial application.

The adoption of MFRS 16 have the following impact on the unaudited consolidated financial statements on 1 January 2019 and for the period ended 31 March 2019 as shown below:

The Group recorded a higher revenue of approximately RM363.38 million in the current quarter as compared with RM337.76 million achieved in the corresponding quarter of 2018. The Group recorded a higher Earnings Before Interest, Tax, Depreciation and Amortisation ("EBITDA") of approximately RM59.69 million in the current quarter as compared with RM25.69 million in the corresponding quarter of the previous financial year due to higher gross profit margins and lower operating and administration expense of the Group resulting from a leaner operations and unrealised gain on foreign exchange.

Consequently, the Group posted a profit after tax of RM14.60 million in the current quarter as compared with a loss after tax of RM18.87 million in the corresponding quarter of the previous financial year.

Asia & Oceania Segment

Asia & Oceania Segment recorded a slightly lower revenue contribution mainly attributable to the lower project-based revenue recognised from orders secured in 2018, as most of the major new orders are secured in the current quarter.

This Segment recorded an improved gross profit of approximately RM4.55 million and EBITDA of approximately RM9.68 million in the current quarter as compared with gross profit of RM1.85 million and EBITDA of RM1.93 million in the corresponding quarter of the previous financial year, mainly due to a lower operating expense resulting from cost control measures and an unrealised gain on foreign exchange.

Europe Segment

The Europe Segment recorded a higher revenue of approximately RM279.90 million in current quarter as compared with RM251.47 million in the corresponding quarter of the previous financial year mainly due to improved gross profit margins and higher new orders secured particularly in the second half of year 2018 on the back of the improvement in the petrochemical industries.
