A10. Valuation of property, plant and equipment

Valuation of property and plant of the Group has been brought forward without amendment from the financial statements for the financial year ended 31 December 2019.

The next revaluation of property and plant of the Group shall be conducted in the financial year ending 31 December 2024.

A11. Material events subsequent to the end of the interim year

On 18 November 2021, pursuant to Chapter 9.03 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad, the Company ("KNM", the "Issuer") had announced that a non-payment event has occurred in relation to the payment of the principal sum and coupon on the bonds issued by KNM in Thailand amounting to THB 2,780 million (equivalent to approximately RM 352.57 million) (the "Thai Bonds").

The Thai Bonds are guaranteed by Credit Guarantee and Investment Facility, a trust fund managed by the Asian Development Bank (the "Guarantor" or "CGIF"). The Thai Bonds had matured on 18 November 2021 and under the terms and conditions of the Thai Bonds, KNM has up to 14 days after the maturity date, being 2 December 2021, to pay the principal sum and up to 21 days after the maturity date, being 9 December 2021, to pay the coupon arising therefrom ("Grace Period"), failing which, an event of default shall be deemed to have occurred.

KNM has encountered challenges and delays in refinancing the Thai Bonds due to the COVID-19 pandemic and unfavourable operating conditions of the KNM's subsidiary in Thailand namely Impress Ethanol Co. Ltd.("IECL") which owns and operates an ethanol plant in Thailand.

KNM is in the advanced stage of discussions with several lenders to secure new financing facilities to redeem the Thai Bonds. However, the final approval decisions of these new financing facilities are expected to occur only after the maturity date of the Thai Bonds. In addition, KNM has also appointed consultants to monetise the investments of KNM, including disposal of assets / shares in IECL. KNM is in close communication with CGIF on KNM's ongoing refinancing plans to address this non-payment event and where applicable, to reimburse CGIF the guaranteed amount paid by CGIF to the bondholders. Under the guarantee agreement between CGIF and the Bank of Ayudhya Public Company Limited who is the bondholders' representative for and on behalf of all bondholders, the bondholders have the rights to make a demand for payment of the guaranteed amount from CGIF within the demand period in the event that the non-payment event is continuing after the Grace Period.

The non-payment event may have an adverse impact on the financing facilities of KNM and its subsidiaries ("KNM Group") in the event that the respective financial institutions suspend their financing facilities granted to KNM Group pending the resolution of the non-payment event. Nevertheless, KNM shall endeavour to continue its other remaining business operations notwithstanding the non-payment event and will engage with the lenders and suppliers for their continuing support.

Save for item no. B8 and the above, there were no other material events subsequent to the end of the reporting period and up to the date of issuance of this report.

PART B: ADDITIONAL INFORMATION REQUIRED BY THE BURSA MALAYSIA LISTING REQUIREMENTS

B1. Performance of 9-month ended 30 September 2021 against 30 September 2020

The Group achieved a lower revenue of RM803.60 million for the financial period ended 30 September 2021 as against RM990.91 million year-on-year ("y-o-y"), mainly due to lower production output achieved in Malaysia as a result of the restricted production capacity caused by the Movement Control Order ("MCO") and slow replenishment of orders caused by the COVID-19 pandemic worldwide.

Consequently, the Group achieved a lower gross profit of RM183.58 million as against RM193.69 million y-o-y. It is noticeable that the gross profit margin had continued to improve from 19.6% to 22.8% y-o-y, mainly attributable to the savings achieved from rigorous cost control measures in fabrication division.

The Group reported a lower Earnings Before Interest, Tax, Depreciation and Amortisation ("EBITDA") of RM149.06 million as against RM176.89 million y-o-y, mainly due to reversals of provisions in receivables recognised in the previous financial period.

The Group reported a loss before tax ("LBT") of RM6.15 million in the current financial period as against a profit before tax ("PBT") of RM55.74 million y-o-y, partly due to finance costs incurred for certain construction projects within the Group have been expensed off into income statement in the current financial period.

Asia & Oceania Segment

This Segment posted a lower revenue of RM52.60 million as against RM151.57 million y-o-y mainly due to lower production output caused by the restricted production capacity in fabrication division in Malaysia as a result of the MCO compliance in the current financial period, coupled with slow replenishment of orders caused by the prolonged health pandemic and no contribution from Thailand's operations

Consequently, this Segment reported a lower gross profit of RM5.92 million as against RM17.93 million y-o-y, and achieved a lower EBITDA of RM2.84 million as against RM70.13 million y-o-y, mainly due to unrealised exchange gain in the preceding financial period.

Europe Segment

The Europe Segment posted a lower revenue recognition of RM750.99 million as against RM839.34 million y-o-y mainly due to lower orders received in the previous quarters caused by the prolonged health pandemic.

Despite a lower revenue achieved, this Segment reported a higher gross profit of RM177.66 million as against RM175.76 million y-o-y due to the higher gross profit margin of this Segment at 23.7% as against 20.9% y-o-y, mainly contributed by the higher profit margins from heat exchanger business units.

A higher EBITDA of RM146.01 million was achieved by this Segment as against RM108.81 million yo-y mainly due to unrealised exchange gain in the current financial period.

America Segment

The Segment remains dormant and insignificant to the Group in the current financial period.

B2. Performance of the current quarter against the preceding quarter (3rd Quarter 2021 versus 2nd Ouarter 2021)

The Group posted higher revenue of RM326.38 million in current quarter as against RM245.98 million in the preceding quarter, mainly due to higher deliveries of process equipment projects in the current quarter from Europe Segment.

Consequently, the Group recorded a higher gross profit of RM73.69 million in the current quarter as against RM62.05 million in the preceding quarter.

The Group reported a LBT of RM20.07 million in the current quarter as against a PBT of RM15.08 million in the preceding quarter, mainly due to the unrealised exchange loss and higher finance costs for certain construction projects of the Group have been expensed off into the income statement in the quarter under review.

B3. Prospects

The Board anticipates that the outlook for financial year ending 31 December 2021 will remain challenging due to the continuous uncertainties in the global economy outlook arising from impacts of COVID-19 pandemic.

The underlying industries that drive our business prospect such as oil & gas, petrochemical and energy will remain challenging as recovery of the disruption from the COVID-19 pandemic is largely depending on the roll-out speed of vaccination to majority of the population, stability of the crude oil price and the resurgence of COVID-19 pandemic particularly in Asia. The Board will take the necessary measures to manage and mitigate these uncertainties.

We believe that with the various efforts undertaken by the various governments, the global economy will show improvement towards the end of 2021 with higher vaccination rate and easing of lockdowns particularly in major economies including United States of America, Europe and China.

B10. Financial Instruments

The outstanding forward foreign currency exchange contracts as at the end of the financial period were as follows:-

Type of Derivative	Loss on Fair value		
	Contract/Notional value RM'000	changes RM'000	
Foreign Exchange Contracts			
-Less than 1 year	20,495	249	
_	20,495	249	

Exposure to foreign currency fluctuation of underlying commitments is monitored on on-going and timely basis. The Company's objective to incept derivative instrument contract is mainly to hedge against foreign exchange exposure on transactions in currencies other than its own.

Forward foreign exchange contracts are entered into with licensed banks to hedge the Group's exposure to foreign exchange risk in respect of its export sales, import purchases and other obligations by establishing the basis rate at which a foreign currency asset or liability will be settled. These contracts are executed with credit-worthy/reputable financial institutions and as such, credit risk and liquidity risk in respect of non-performance by counterparties to these contracts is minimal.

The fair values of the forward foreign currency exchange contracts are subject to market risk and the fair values were derived from marking to available market quoted price as of the reporting year. The fair value of the forward contracts may change in accordance to the fluctuation of the exchange rate of the underlying currency resulting in gain or loss in fair value.

The cash requirement for these derivatives will be fulfilled by future contract and other proceeds on the respective maturity date.
